# WEIGHT LOSS WITH ZEODETOX

Spring and summer are almost here. We need to lose some pounds accumulated during this long winter.

We can offer you the use of **ZeoDetox Liquid** or **ZeoDetox Kelp** to shake out the toxins and stimulate your body's detoxification. Clinical studies show that Zeolite / Clinoptilolite adsorbs glucose and enhances insulin levels. Clinical cases show that people started losing fat deposition around the stomach in the second week of Zeolite consumption.

**ZeoDetox Liquid** – 3ml twice a day in a glass of warm water. The course is three bottles.
**ZeoDetox Kelp** – 2 tablets in the morning with a glass of warm water.
